**Subject:** Procino-Blades- Private Well

Frank,

**Ex. 6 Personal Privacy (PP)**

is planning to have a replacement well put in on his property. His property is near wells on other properties with levels of PFAS above 70 ppt. His previous well tested below 70 ppt. However, there is a possibility that the new well could encounter elevated PFAS. Please put two Aquasana Countertop Systems in the Town Office so that he can pick them up and put them on his bathroom and his kitchen sink.

Josh-Please let me **Ex. 6 Personal Privacy (PP)** know that he can pick up the filters next week.

Dan- Please make sure to include this new well for **Ex. 6 Personal Privacy (PP)** on your list of private wells to test.

Thanks. Please call or email me with any questions.
